

*See notes below map.*

Field #1 is on the football field that has goal posts directly behind the football stadium.

Field #2 is now just to the north of Field #1 as shown on map above.

There is only one equipment box this year. It has the equipment for BOTH fields and is chained to the backstop of the baseball field that is between Field #1 and Field #2. (Big brown wooden box. See map above for location.)

Remember, you will only have Yard Markers on one side of the field this year.

Please make sure that all of the equipment from BOTH fields is put in the box before it is locked up.

Everyone should park in the back of Templeton Middle school for both fields.

The map above shows where everything is located.
